Advanced Dashboard

Multi-Screen Setup: Microsoft Edge

Initial Setup

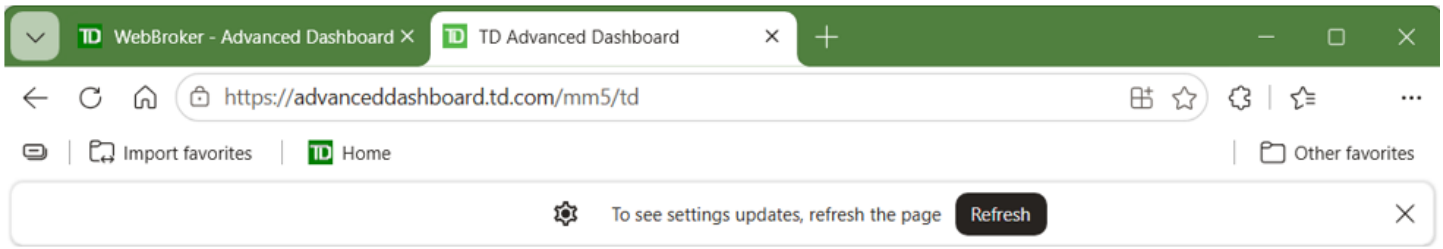

1) After logging into Advanced Dashboard, select the site information icon next to the address bar, then select **Site settings**.

2) The Settings tab opens in a separate window. Scroll down to **Pop-ups and redirects** and **Window Management**. For each setting, click the drop-down menu and select **Allow**.

3) Close the Settings tab by clicking the "**X**" on the tab.

4) After returning to the Advanced Dashboard window, click the **Refresh** button.

Customization

After you set the **Pop-ups and redirects** & **Window management** preferences for the first time, they will appear in the site information icon menu. You can update them directly from this menu going forward.
