Advanced Dashboard

Multi-Screen Setup: Safari

Safari does not require any browser settings for windows management to support a multi-screen setup. However, pop-ups must be allowed.

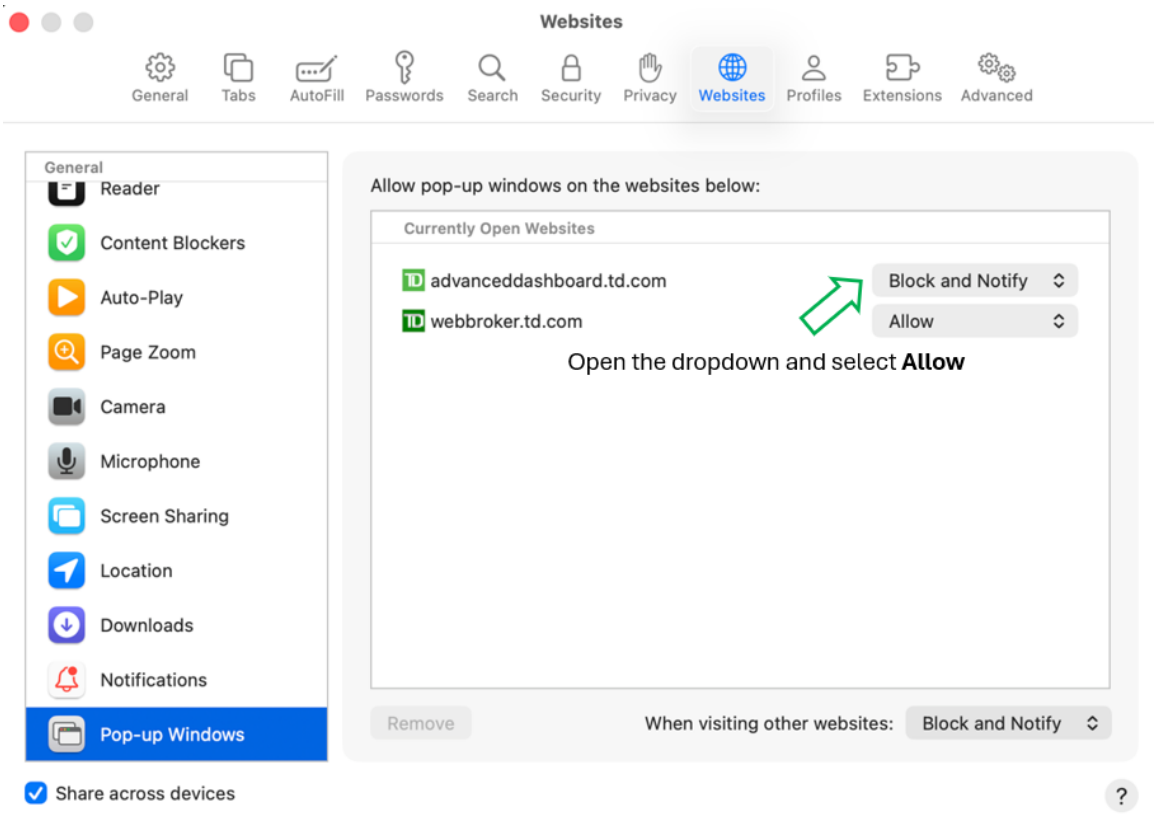

Pop-up Setup

1) After logging into Advanced Dashboard, select **Safari > Settings**.

2) Select the **Websites** Tab and then **Pop-up Windows**. If it isn't visible, scroll down the list.

3) Locate the Advanced Dashboard website and select **Allow** from the drop-down menu.

4) Close the Settings window and return to Advanced Dashboard.
